SUMMARY

Information Technology student at Florida State University (4.0 GPA) with hands-on experience in network troubleshooting, backend API development, and IT service workflows. Seeking a 2027 internship in IT support, infrastructure, or information security.

EDUCATION

Florida State University, Tallahassee, FL **Expected May 2027**
Bachelor of Science in Information Technology | GPA: 4.0

Tallahassee State College, Tallahassee, FL **December 2025**
Associate of Arts in Information Technology

TECHNICAL SKILLS

Programming Languages: C#, C++, Java, Python, SQL, JavaScript
Frameworks and Runtimes: ASP.NET Core, .NET 8, Windows Forms
Web: HTML, CSS, JavaScript, responsive multi-page development
Networking and Security: Subnet scanning, device reachability testing, Wireshark packet analysis, role-based authentication, enterprise security hardening (observed)
Tools and Software: Git, GitHub, Microsoft Office Suite, Adobe Illustrator, Adobe Photoshop
Spoken Languages: English (Native), Chinese (Beginner Conversational)

TECHNICAL PROJECTS

Help Desk Sim, Backend API Project **2026**
ASP.NET Core, C#, .NET 8

- Designed an ASP.NET Core API modeling help desk ticket workflows, technician notes, SLA targets, and audit history.
- Implemented role-based authentication with access and refresh tokens, password resets, active session tracking, and revocation history.
- Added notification retry handling and CSV export of filtered audit records for review.

LanSentinel, Network Scanning Utility **2026**
Java, Java Networking APIs

- Developed a Java utility that scans a local subnet and reports IP address, hostname, online status, and response time per device.
- Structured scan output through a device result model to keep reachability data consistent and extensible for reporting.

Jarvis, Desktop AI Assistant **Spring 2026 - Present**
C#, .NET 8, Windows Forms, LM Studio

- Built a self-hosted Windows assistant in C# and .NET 8, separating the planning, memory, and tool-dispatch runtime from the UI layer.
- Implemented wake-word detection, speech recognition, text-to-speech, reminders, and desktop automation as one local system.

EXPERIENCE

Florida State University, Tallahassee, FL **August 2026 - Present**
Communications Associate, Departments of Geography and Demography

- Restructured departmental databases on own initiative, reorganizing records so information is consistent and far easier to locate.
- Perform ongoing WordPress site edits and content updates for both departments, with expansion to additional Social Sciences sites planned.
- Own day-to-day communications for both departments: student and research spotlight articles, event graphics, and social media.

Florida Blue, Jacksonville, FL **May 2026**
FSUshadow Participant, Information Security Engineering

- Selected through FSU's competitive matched job shadow program for a full day with the enterprise Information Security Engineering team.
- Observed Palo Alto Networks technology in production, including live troubleshooting, security hardening, and enterprise policy enforcement.

Dickerson Landscaping, Tallahassee, FL **July 2026 - Present**
Nursery Manager

- Manage and maintain the standing plant stock at the company's private nursery, keeping inventory healthy and ready for crew use.

Additional Experience: Tallahassee Nurseries (Register Staff, Loading Team Lead), Blue Parrot Oceanfront Cafe (Busser/Barback), SLS and Horizon Home Modifications (Laborer) **2019 - 2026**

CERTIFICATIONS AND AWARDS

President's List, Florida State University (Spring 2026) | Adobe Certified Professional, Illustrator and Photoshop (2023)
IT Infrastructure Fundamentals | IT Service Management: Problem Management | Networking Foundations | Wireshark Troubleshooting
Certificate in Game Design, George Mason University | Certificate of Leadership, ATA Songahm Taekwondo
